ENERTITE® X Open-cell Spray Foam Appendix X Approved Chemistry Ignition Barrier NOT Required

ENERTITE® X is an open-cell SPF insulation formulated for compliance with attic and crawlspace applications without the need of ignition barrier coatings. Simplify your open-cell SPF use in attic applications with BASF's Appendix X chemistry solution. ENERTITE X is ideal for insulation and air sealing applications in residential and commercial construction.

Simplify by Spraying ENERTITE X:

- Eliminates need for special access or configuration for code compliance
- Minimize waste and save money with R-13 at 3.25"
- Reduced setup and processing time
 - > Start spraying at 85°F after minimal recirculation
- Low processing temperatures for easier gun handling
- Faster reactivity - less dripping
- Easy overspray removal - simplifying job cleanup
- Adheres well to cavity, framing and itself
- Coverage rates 14,000-17,000 bd. ft. per set

Product Credentials and Qualifications:

- Appendix X attic and crawlspace approvals with no ignition barrier required
- GREENGUARD Gold Certification
 - > Documented low-VOC materials for improved IAQ
- Quick re-entry time
 - > 2 hours for other trades with proper ACH
- NFPA 285 complying assemblies available
- Intertek Code Compliance Research Report (CCRR-1032)
- High level of renewable content
 - > Pending USDA BioPreferred® listing
