

Product Information

WALLTITE® RSB Closed-cell Spray Foam

Recycled. Sustainable. Bio-based.

WALLTITE® RSB is a high-performance, medium-density, HFO-based closed-cell SPF insulation designed with higher renewable and recycled content while meeting GREENGUARD Gold standards and other rigorous requirements. Ideal for insulation and air sealing in residential and commercial construction, WALLTITE RSB offers consistent thermal performance, smooth surface profile, and all the reliability of BASF WALLTITE products, while providing opportunities to qualify for green building rating system projects.

PERFORMANCE + SUSTAINABILITY

Sustainable Innovation

- Contains 20% combined renewable and recycled content by volume
- Supports LEED, EPA, and public sector green building standards
- Low-GWP blowing agents for minimal environmental impact

Superior Application

- Reliable adhesion and performance on multiple substrates
- Consistent spray pattern and smooth finish
- Dependable coverage and sprayability
- Wide processing window for easy handling

Long-Term Value

- Reduces total embodied carbon and supports building energy efficiency
- Exclusive project specification potential
- Meets requirements of many green certifications and sustainable design

PRODUCT FEATURES & QUALIFICATIONS

- **NSF-verified Environmental Product Declaration**
 - Proven reduction in embodied carbon
- **Low-GWP, HFO-based formulation**
- **Superior efficiency:** R-values up to 7.6 per inch
- **GREENGUARD Gold certification**
 - Documented low-VOC material for improved indoor air quality
- **Quick re-entry time**
 - 2 hours for other trades with proper air changes/hr
- **Intertek Code Compliance Research Report (CCRR-0374)**
- **UL Solutions Environmental Claim Validation (ECV) for mold-resistance**
- **UL Solutions ECV for bio-content**
- **UL Solutions ECV for recycled content (pending)**
- **USDA BioPreferred (pending) for Certified Biobased content**

Manufactured in the United States of U.S.
and imported ingredients.
