HABLAMOS ESPAÑOL

Spanish Spray Foam Training

Do you have spanish speaking or bilingual personnel who need beginner or refresher spray foam training?

BASF now offers several options for training or re-training your applicators. Give Inside Technical Sales a call and arrange the option that best fits your applicators' needs. Contact your Territory Sales Manager to arrange a date that fits your schedule.

TTC TRAINING

We offer the following courses:

- Foam Mechanics / Materials & Roofing Course
- Foam Mechanics / Materials & Insulation Course

Language options (Min. 8 registrants):

- English
- Spanish
- Bilingual (English / Spanish)

Custom options (Min. 8 registrants):

You choose location, language(s), date and course

Why choose our spray foam training courses for your applicators?

Your applicators will:

- Learn in a language in which they are comfortable
- Receive up-to-date safety training and learn about the proper PPE
- Learn to properly process BASF spray foam products
- Learn how to troubleshoot common SPF issues
- Receive training Certificate of Completion upon passing the course

Our Technology Training Center (TTC) Training schedule, course descriptions and registration form is available on our website at <http://www.spf.basf.com/training.php>. For additional information, please contact us by phone at 1- 800-706-0712, option 2 or by email at spf.techsales@basf.com.
